**Mr. Bryant was appointed by the court to serve as my child's Guardian ad Litem during what was observed by others as a simple 'custody dispute' between my ex-husband and myself. Mr. Bryant's keen insight and review of all aspects of our case proved him to be the epitome of what a GAL should be for my child: honest, intelligent, and unwavering in his determination to discover the truth amid the deliberate and often harmful obfuscation of facts presented by my ex husband's attorney, in order to find what was truly 'best' for our child 'stuck' in the battle with no voice or power. Mr. Bryant uncovered the deeply buried skeletons of verbal and emotional abuse, and single-handedly provided my son with something I had never dreamed possible - a chance to live a normal life with freedom from the emotional abuse and most importantly, strong protective language which will insulate him not only today but for the remainder of his childhood. Although the courts appointed Mr. Russell Bryant as my child's Guardian ad Litem, I am a living testimony that he was really our Guardian Angel.**
